

FEEDBACK ANALYSIS REPORT

Introduction to feedback

The Internal Quality Assurance Cell (IQAC) plays a crucial role in enhancing the educational quality of the institution. Feedback, a highly effective teaching and learning technique, directly influences the knowledge acquisition process. The IQAC collects feedback from key stakeholders, including students, teachers, employers, and alumni. This feedback is analyzed using statistical tools, and subsequent actions are determined based on stakeholder opinions to continually improve the educational environment.

Teachers and employers feedback were collected through offline.

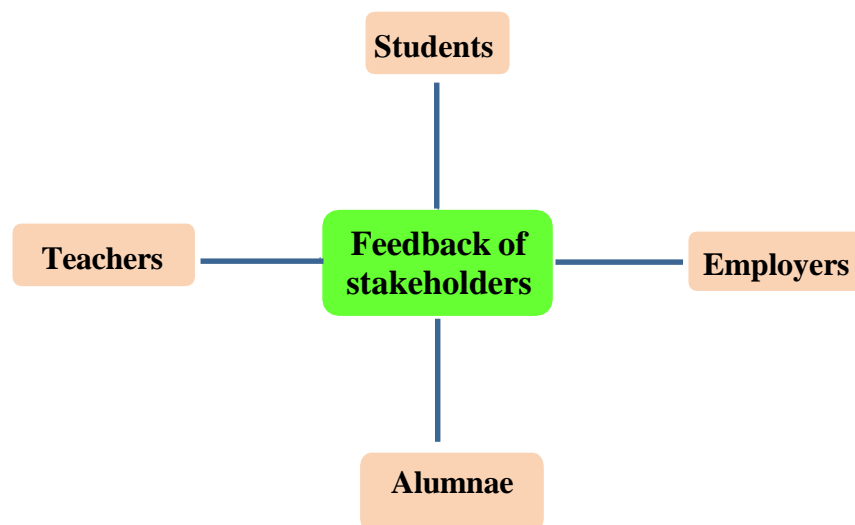

Objectives of Feedback

To provide students with the opportunity to express their views on the quality of their learning experience, as an integral part of the preparation for and evaluation process.

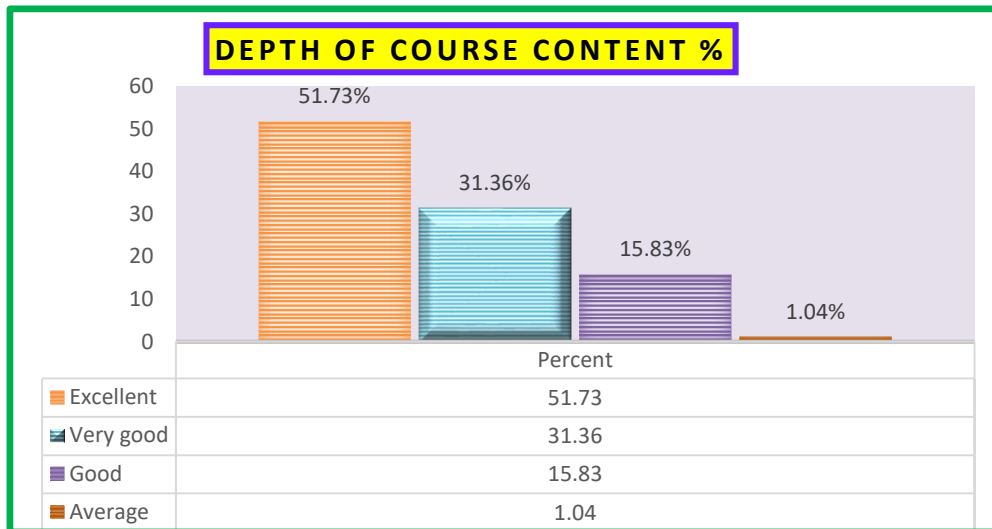

To assess the achievement of academic offerings in alignment with students' expectations.

To foster the comprehensive development of a student's personality, encompassing social and spiritual dimensions.

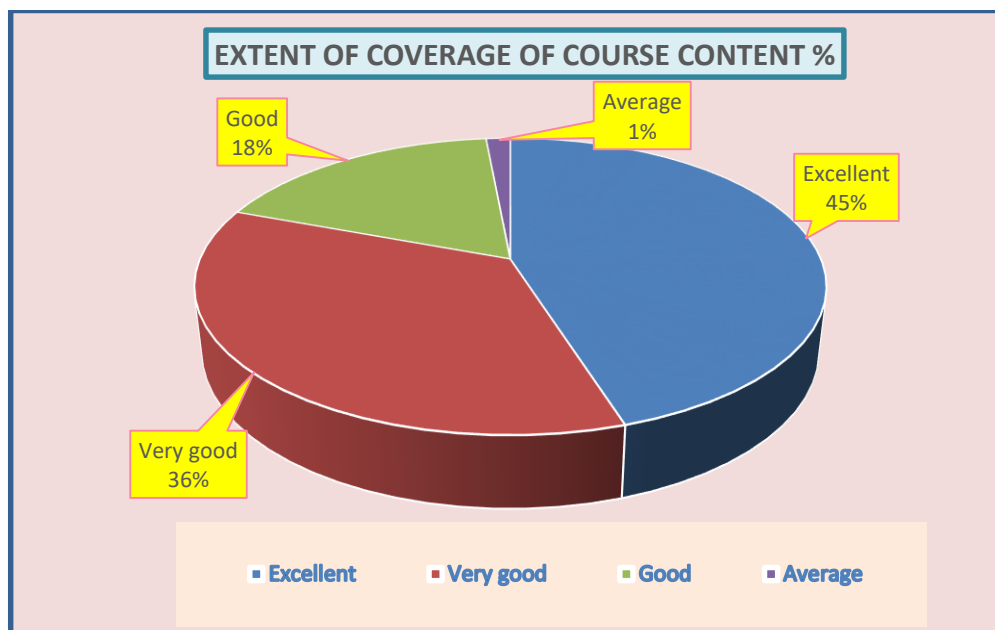

Feedback Process
