

## **DEPARTMENT OF PHYSICS**

**Programme Title: B.Sc. PHYSICS**

### **PROGRAMME OUTCOMES**

- PO1:** To understand the basic concepts and analyse for prediction of physical systems.
- PO2:** To derive several conclusions for the science problems related to public health, safety and environmental issues using the knowledge of physics.
- PO3:** To apply critical reasoning skills with ethical principles to solve physics related problems with precision and accuracy.
- PO4:** To equip the students to communicate effectively on interdisciplinary concepts and describe the natural phenomena individually and in teams.
- PO5:** To prepare the students to create and apply appropriate techniques and modern tools
